TECH CENTER 1600/2900

DECLARATION UNDER 42 U.S.C. § 2182

We, the undersigned inventors, hereby declare and state as follows:

1. We made and conceived the invention(s) described and claimed in U.S. Patent Application No. 10/067,761, filed on February 8, 2002.

2. We made and conceived the above invention(s) while employed by Human Genome Sciences, Inc. The above invention(s) is/are related to the work we are/were employed to perform and was/were made within the scope of our employment duties. To the best of our knowledge, the above invention(s) was/were made during working hours and with the use of facilities, equipment, materials, funds, information, and services of Human Genome Sciences, Inc.

3. To the best of our knowledge, the above invention(s) was/were not made or conceived in the course of, or in connection with, or under the terms of any contract, subcontract, or arrangement entered into with or for the benefit of the United States Atomic Energy Commission or its successors Energy Research and Development Administration or the Department of Energy.

4. We declare further that all statements made herein of our own knowledge are true, and that all statements made on information and belief are believed to be true, and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.
